## Easy Mixing, Easy Matching

Consistent grade and consistent color make 3M™ Colorquartz™ Ceramic-Coated Crystals a cut above other coated quartz in the marketplace.

Granule for granule and bag for bag – you can rely on easy flow and matching color, year after year.

## Timeless Color Blends

The 3M Color Lab is a place where art and science come together to create classic, timeless color blends for architectural styles and color schemes. Whether an installation calls for warm or cool colors,

3M has developed many blend combinations. Builders and architects enjoy the range of color choices as well as the ability to create their own custom blends with limitless possibilities.

*Quality*

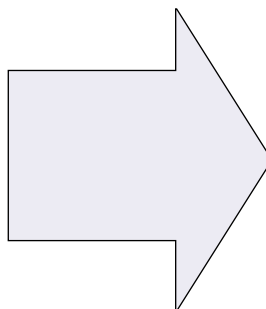

## Build color and beauty into other architectural surfaces:

- pools
- patios and decks
- countertops
- walls and moldings

## The Benefits

*If you're looking for...*

Lasting color

### *The 3M Quartz Granule: A Product of 30 Years in Research and Development*

Refined by 30 years of lab research, Colorquartz Ceramic-Coated Crystals are as tried and tested as the natural quartz mineral that inspired their creation. The color, which is permanently bonded to each granule, is proven to stand up against UV rays and harsh chemicals.
